Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: the record of prior art does not show an electric induction machine, comprising a secondary coil spaced from the rotor by a second air gap; wherein the secondary coil is disposed around an axis of rotation for the rotor to allow induction of a slip energy current in the coil without inducing a rotational energy current.

The best arts of record include Kalsi, Davis, and Knauer. However, Kalsi shows the secondary winding being rotated with the rotor while Davis and Knauer show the primary and secondary windings being mounted in the same stator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
